2021	<b>Senior Secondary (XII), Science</b> St. Raphael's Higher Secondary School, Indore Percentage:
2019	<b>Secondary (X)</b> St. Raphael's Higher Secondary School, Indore Percentage:

## SKILLS & ABILITIES

---

C++ | C | JavaScript | HTML5 | CSS | Data Structures

## PROJECTS

---

### PlayStation

<https://tanyaagrawalhii.github.io/PlayStation/>

This is a project based on JavaScript where I have compiled three mini projects:-

- 1) Tic-Tac-Toe
- 2) Maze
- 3) Chrome Dragon

Demonstrated effective problem-solving and algorithm thinking game development

### Personal Portfolio

This is my personal portfolio which is a comprehensive showcase of my skills.

It serves as a dynamic resume, highlighting your professional journey, technical skills, creative projects, and personal interests.

## Weather Chrome Extension

[https://tanyaagrawalhii.github.io/Weather\\_ChromeExtension/](https://tanyaagrawalhii.github.io/Weather_ChromeExtension/)

It is a handy tool developed using JavaScript that provides real-time weather updates directly in your browser.

It fetches weather data from a reliable API and displays current conditions, forecasts, and temperature for your chosen location.

## Expenses Tracker

The Money Tracker App is a web-based tool developed using HTML, CSS, and JavaScript that helps users manage their finances effectively.

This app allows users to record their income and expenses and categorize transactions.

## KEY STRENGTH

---

- Problem Solving Skills
- Attention to Details
- Technical Proficiency
